Matriculation | 2016-2018
Grade: A+ | Score: 95%

Intermediate| 2018-2020
Grade: A+ | Score: 92%

BS Computer Science| 2022-2026
Current CGPA: 3.17 / 4.0
Last SGPA: 3.41 / 4.0

ABOUT ME

Self-driven Full Stack Developer with a passion for creating innovative web applications using the MERN stack. Through dedicated self-learning and hands-on project development, I have mastered MongoDB, Express.js, React, and Node.js to build scalable, feature-rich applications. My journey as a developer has been fueled by curiosity and a commitment to excellence, resulting in a diverse portfolio that includes **E-commerce** platforms, **real-time chat applications**, **AI-powered** solutions, and **award-winning design** implementations. I thrive on solving complex problems through code and am eager to bring my technical skills, creative problem-solving abilities, and fresh perspective to a dynamic development team.

KEY PROJECTS SUMMARY

Forever - E-Commerce Platform

Full-stack MERN e-commerce application featuring comprehensive user authentication with role-based access (customer/admin), shopping cart functionality, and secure payment processing integration with Stripe. Built with **MongoDB, Express.js, React, Node.js, TypeScript**, and **Tailwind CSS**.

LetsTalk - Real-Time Chat Application

MERN stack messaging platform with **Socket.IO** integration for real-time communication and online status tracking. Demonstrates expertise in real-time web technologies and user experience design.

Prodigy Gaming - Award-Winning Design

Premium gaming website showcasing award-winning design principles inspired by ZENTRY (2024 winner). Features stunning animations, smooth scrolling, and cutting-edge UI/UX design built with **React, TypeScript**, and **Tailwind CSS.**

Prodigy Gaming - Award-Winning Design

Premium gaming website showcasing award-winning design principles inspired by ZENTRY (2024 winner). Features stunning animations, smooth scrolling, and cutting-edge UI/UX design built with **React, TypeScript**, and **Tailwind CSS.**

OTHER SKILLS

- Problem Solving
- Critical thinking
- Communication
- Attention to detail

Counsailor - AI Mental Health Assistant

Intelligent therapy companion powered by **Google Gemini AI** with secure **Firebase** authentication. Demonstrates integration of AI technologies with mental health support and responsive design principles.

GoWheels - Car Rental Platform

Modern **car rental interface** with variety of vehicle options and intuitive booking system. Frontend-focused project showcasing **React**, **TypeScript**, and **Tailwind CSS** capabilities.

Flowsphere - Secure Chat Application

Real-time chat application with file-sharing capabilities, built using **React**, **Firebase**, and **Tailwind CSS**. Emphasizes security and user-friendly communication features.

DashZilla - Analytics Dashboard

Comprehensive admin dashboard with interactive charts, real-time data visualization, and sales analytics. Desktop-optimized business intelligence solution built with **React** and **Tailwind CSS**.

Climeadeeno - Weather Application

Real-time weather application with location-based updates and custom search functionality. Integrates **OpenWeather API** with **React.js** and **Tailwind CSS**.

AnimeBible- Anime Discovery Platform

Anime discovery hub for exploring popular and trending anime with detailed information. Built with **React.js, Tailwind CSS**, and powered by **Jikan API.**
