

MUNEED AHMED

Lahore, Punjab • +92 303 0744469 • muneebbum757@gmail.com • linkedin.com/in/muneeb-a-544a01254 • <https://devmuneeb.netlify.app/>

Web Developer

MERN Stack Developer with 6+months experience designing, developing, and deploying 8+ scalable web applications. Proficient in building real-time, user-focused applications using React, TypeScript, Node.js, and MongoDB. Demonstrated expertise in integrating AI models (Google Gemini), secure payment gateways (Stripe), and high-performance animations (GSAP). Committed to clean-code architecture and maintainable software development.

WORK EXPERIENCE

Loops Technologies

11/2025 - 02/2026

Frontend Developer (Internship)

- Contributed to the development and optimization of web applications using the MERN stack.
- Developed reusable UI components and styled responsive web pages using Tailwind CSS.
- Collaborated within a team environment to translate complex requirements into clean, maintainable TypeScript code.
- Participated in daily stand-ups and scrum while also using Discord and Slack for team communication and collaboration.

PROJECTS

Forever – Full-Stack E-commerce Platform

- Engineered a comprehensive e-commerce solution featuring Role-Based Access Control (RBAC) for customers and admins. Implemented secure JWT based Authentication & Authorization.
- Integrated Stripe Payment API for secure checkout and implemented persistent shopping cart functionality.
- Developed a RESTful backend using Node.js and MongoDB for product catalog management and order tracking.

Lets Talk – Real-Time Messaging Application

- Architected a real-time chat platform using Socket.IO and WebSockets for bi-directional, instant messaging.
- Implemented online status tracking and presence indicators for real-time user activity and status.
- Optimized UI responsiveness with optimistic updates, ensuring a seamless communication experience on mobile and desktop.

Prodigy Gaming – Cinematic UI/UX Showcase

- Built a high-performance gaming website featuring advanced scroll-driven animations and cinematic transitions using GSAP and React.
- Engineered smooth parallax scrolling and intersection-based triggers to deliver an immersive, award-caliber user experience.
- Achieved 60fps animation performance through rendering efficiency and web performance optimization.

Counsailor – AI Mental Health Assistant

- Developed an AI-powered assistant leveraging Google Gemini API to provide real-time support and interaction.
- Implemented secure user authentication using Firebase.
- Designed a responsive interface for mental health support.

Future Capsule (MVP)

Designed and built a cross-functional SAAS application allowing users to schedule emails for future delivery using React and Go.

SKILLS

Languages: CSS, HTML 5, JavaScript (ES6+), TypeScript

Frontend: Expo, Next.js, React.js, React Native, Recharts, Shadcn/ui, Tailwind CSS, Vite, Zustand

Backend & Database: Express.js, Firebase, Firestore, MongoDB, Mongoose, Node.js

Tools & DevOps: ChatGPT, Claude, Copilot, Gemini, Git, GitHub, Netlify, npm, Postman, Socket.IO, Stripe API, Vercel, WebSockets, yarn

Core Concepts: Authentication & Authorization, JWT Authentication, Performance Optimization, RBAC, Responsive UI/UX Design, State Management

Methodologies: Clean-Code Architecture, Debugging, Technical Documentation

EDUCATION

Bachelor of Science in Computer Science

Khwaja Fareed University of Engineering & Information Technology (KFUEIT) • GPA: 3.17/4.00 (Last Semester GPA: 3.41/4.00) 01/2026

Relevant Coursework:

- Data Structures & Algorithms
- Database Systems
- Software EngineeringWeb Development
- Operating Systems.
